THE ENGLISH ELECTIONS. The most important intelligence received by yesterday's mail is the result of the English elections. So far the return is exclusively confined to England and does not even then include the counties, or Oxford University, but such as it is, it gives Palmerston in sity, but such as it is, it gives l'aimerston a working majority of twenty-seven. Ircland and Scotland will undoubtedly make the margin much wider. The general result of the elections does not seem to have altered very materially the character of the House of Commons. "The new House" says a London journal, "will be the old one a little invigorated." The most prominent and certainly most important feature in the recent elections is the return of Mr. John Stuart Mill for Westminster and Mr. Hughes the author of "Tom Brown," for Lambeth There was a marked similarity in the manner in which these gentlemen were elected Both were opposed strenuously by wealth, yet neither spent money in electioneering The liberal electors took them into their The liberal electors took mem into their safe-keeping, worked unceasingly, spent their own money, and returned thom. If example had any weight we should find more purity after this in English elections; but open voting, the only serious and unmistakable fallacy to which Mr. Mill subscribes is the standing barrier against either good example or wise precept. Where money or influence is made in nine cases out of ten the great test, and not principle or general usefulness, something must be rotten, and Mr. Mill may probably find, when he adds Parliamentary experience to his general stock of knowledge, that the only remedy for this moral decay is to be found in the ballot. When candidates are beaten off the hustings or mobbed in the streets, when houses ar smashed and heads broken, and when orderly communities are turned for the nonce int something more ruthless and less civilized than North American Indians, it may be questioned whether the system that produces such a state of things is a wise one. Or looking cursorily over the results of the recent elections we find that rioting has been the order of the day.

At Nottingham, Hudders
field, Taunton, Tavistock, Chippenham, Cricklade, Dudley, and other places the disturbances were scarcely to be put down by the civil authorities. At Dudley so completely had the mob the control of the town that only a portion of the votes on one side could get polled and the Committee were obliged to issue notices to the effect that they declined to ask the supporters of their candidate, Mr. Truscott, to subject themsolves to serious personal danger by venturing to record their votes. At Chippenham the fury of the enraged populace was directed against the windows and furniture of obnoxious voters, and it was not until after midnight the work of destruction had ceased. The Vicar of the place, the Rev. J. Rich, had made himself especially disagreeable, and the mob, with a grim, diabolical humor, proceeded to the churchyard and tore up the tombstones which they hurled with all the force of a catapult at the reverend gentleman's house. Of course all this is shocking; but it has become so much a part of electioneering contests in Great Britain that the subject scarcely ever rises beyond a newspaper paragraph. Did such scenes occur in Republican America or democratic Australia with universal suffrage and vote by ballot, we should have no end of homilies from the English press about the anarchical tendencies of a widely extended franchise, and the corrupt widely extended franchise, and the corrupt experiences of secret roting. Outside the rioting we have bribery in its most repulsive form. In the very contest in which Mr. Mill form. In the very contest in which Mr. Mill was engaged, Grosvenor and Smith, the other candidates, were purchasing the public houses at ruinous rates of competition. One hotel was offered by Grosvernor £150, but Smith coming down with £300 the landlord bowed in obedience to Smith. The latter gentleman was the Conservative candidate, and although evidently the most extravagant with his money was defeated, the close of the pull showing Grosvenor, 4534; Mill, 4525; showing Grosvenor, 1934; Ann, 1932; Smith, 3824. The two former were therefore elected. Speaking of Mr. Mill during the canvass, the Spectator says:—
"Mr. Mill has addiessed his Committees and the constituency of Westminster. In the first speech he showed the extent and length of his services to the Liberal cause, which he has defended for thirty years, and frequently in an apparently hopeless minority. He and Mr. Roebuck, for example, were at one time the only two men who advocated self-government for the Colonies. On the second occasion Mr. Mill told the electors that he preferred being honest to being elected, and that he had for that reason frankly alluded to crotchets' about which he was almost sure not to be asked. He promised to support Mr. Gladstone, and defined the difference between a Tory and a Liberal—a Liberal being a man who looked forward for his principles of government, and a Tory one who looked backward for his;' 'he was of opinion that we had not 'yet arrived at a perfect model of Government, and had not seen such except in outline; but he looked for it before, and not behind, and he saw that it lay in the eman-cipation of the dependent classes. It lay in more freedom, more equality, more re-sponsibility of each person for himself."

The return of Mr. Hughes for Lambeth is a fitting accompaniment to the election of Mr Mill for Westminster. No individual in the new House of Commons will prove himself a wanner sympathiser for the cause of the

masses than this genial member of the literary world. Probably scarcely inferior in

liberal sentiment to the gentleman just

THE BRITISH COLONIST in the city, and whose proviously short Parliamentary career proves him to be one of the foremost thinkers amongst that large class now making their appearance in Eng-lish political life, called "rising statesmen." However small the gain of the Liberal party may be in numbers, they have obtained an overwhelming advantage over their oppon-ents in the acquisition of the most intellectual men in the country. There is a double victory in this fact; for the bulk of the intellect now on the Liberal side belongs to what is termed the radical element—an element which numbers at present, on the question of Parliamentary reform, such names as Mill and Bright, Gladstone and Goschen, and Hughes and Gibson. The jocular commonplaces of Lord Palmerston will have to give vay in the present House to earnest work and the timidity of some of the more cautious Liberals will have to sink before the vigor and courage of the reinforced intellectual phalanx that is about to present its imposing

THE NEW STEAMSHIP PACIFIC-The Pa new steamships, built by the Company, for the South Pacific trade, and is the largest and finest of the fleet. As a ship she is a perfect model of symmetry and beauty. Her cabine are fitted with the most exquisite taste, and in the most luxurious style, and nothing that could be done to add to the symmetry herebers entitled the comfort of passengers has been omitted. fact the Pacific strikes one at a glance as model of perfection, and the splendid orde in which she is kept reflects the highest credit on her commander and officers. No credit on her commander and officers. Nor have her useful qualifications as a cargo ship been absorbed in the endeavor to make her appear well to the eye, for special pains and the most approved appliances have been used to afford facilities and promptness in landing and discharging cargo, the whole of which is performed by steam power applied to each hatch.

THE NEW LORD CHANCELLOR-The choice of successor to Lord Westbury has been a little unfortunate. The Premier, either un-willing to remove Sir Roundell Palmer from the House of Commons, or failing to purguade him to accept the burden of a peerage. suade him to accept the burden of a peerage, has offered the Great Seal to Lord Cranworth one of the four past Lord Chancellers, a man of the highest character, but not famous as an equity lawyer, seventy-five years of nge, rather feeble, and by no means a very carriest been presented by his friends with an adrather feeble, and by no means a very carnest law reformer. He is apparently expected to clean out the Augean stable, and may do it efficiently, but it is difficult, when we ornider the number of younger men around, not to suspect Lord Palmerston of it slightly cynical motive—an inclination to see whether the public will greatly prefer character withmout genius, to genius without character.—

FROM JAPAN.

From Japan we learn that the Tycoon was about commencing a war of subjugation against the Prince of Meto, and the Damios of Satsuma and Simonesaki, which, if successful, would end all rebellion against the general government, and enable them to carry out in good faith all treaties heretofore made with foreign powers. The result was looked forward to with much interest by all in lavor of opening Japan to the commerce of the world.—Hawaiian Gazette.

Dr. Pritchard, of Glasgow, convicted of poisoning his wife and mother-in-law, has contessed bis guilt. He wrote and signed a full confession. He attributes all his crime to his passion for his servant girl Mary Manclood. He says: "I have reasons to believe that Mrs. Pritchard was quite aware of this, and rather sought to cover my wick-edness and folly. My mother-in-law, Mrs. Taylor, came last February to our house, and caught Mary MacLood and myself in the consulting room; and the day before har death, having apparently watched us, she said to me in the same room, "you have looked her into the cupboard," which was true; but nothing more passed. I declare Mrs. Taylor to have died in the manner I be fore stated; and I now believe her death to Mrs. Taylor to have died in the manner I be fore stated; and I now believe her death to have been caused by an overdose of Battleys solution of opium. The aconite found in that bottle was put in by me after her death, and designedly left there in order to prove death by misadventure, in case any inquiry should take place." Speaking of his wife, he adds: "hardly knowing how to act, at her own carnest request I gave her chloroform. It was about midnight. Nearly all the produce exported here just now is sent to the Lower Provinces. The Quebec correspondent of La Minerve says that Sir E. P. Tacle, who went home on the 15th to St. Thomas, is seriously ill, and that his colleagues are alarmed about the state of his health.

NEW ZEALAND.

Melbourne, May 25.—According to intelligence from New Zealand, General Cameron's refusal to weaken the garrisons in Auckland, and his demand for an additional 5000 men for the campaign, which the Governor and the Ministers or posed, has created a split between them. At Wanganu, the war has closed, and the troops were retiring into winter quarte's. The failure of the campaign had encouraged the Maoris. The state of things in Waikato looked dangerous, the rebels being bent on the re-capture of the confis-cated lands. Thompson with a consider-able number of followers, was still at Tauranga. The Patoria natives were expected shortly to surrender.

HorLoway's Pills and Ointment—Stomach and Kidneys. Between these two organs there exists a close and inimate relation which is demonstrated by the wasting which occurs in all diseases alliciting the kidneys. The disordered stomach is often the first index of renal irrequarity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful effleacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

Holloway's Pills.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent 'so many evils, and is so common, so universal .-implaint, that it is a great biessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with

Holloway's Pills and Ointment.-Influ Holloway's Pills and Ointment.—Influenza, Colds.—In diseases of the throat and chest, as prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

happy revolution occurs throughout the system.

HOLLOWAY'S PILLS—Liver Complaints.—The virtue of these incomparable Pills are fully appreciated in every part of the civilized world. As they act on the general system through the circulation, there are few diseases which they cannot cure; but they are especially efficacious in all the disorders of the liver. For those they are an indubitable specific. They possess unrivalled potents for good, while they cannot do harm. A child might physic itself with these Pills, and without the slightest danger. except from such excess as would make the most wholesome aiment in the world an evil. By reducing the superfluous bile, regulating its due secretion, and giving tone to the stomach, they effect a pormanent and perfect cure.

Holloway's Ointment.

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit; much less cure, any chi onic cases of contracted or stiff Joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paraly tie patients even can derivo advantages from this fine remedy when other means fail. Scorbutic Humours .- Scald Head and Skin

Diseases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Oint ment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidnays Disorders of the Kidneys, Stone and Grave

In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brough about in six months by any other treatment. In bad cases if the Olintment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate celiet. Six or eight of the Pills she talke taken nightly according to circumstances.

Diptheria, Soro Throuts, &c. Dipthoria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Unitment would not be recommended unless the Proprietor was sure of its effect. It will cure when every ofter means have failed, if applied immediately, and not delayed until the paticult is beyond recovery. It is revereign remedy for sore throat. Settled Coughs or wheering will be promptly removed by rubbing in this unquent. Mothers should rub it into the chest of heir infants whenever there is any hoarseness, ightness, or other affection of breathing.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rhoumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain giving poison which vitiates and inflames every tissue t comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rhoumatic maladies.

Holloway's Pills.—A Remedy for Bilious and Liver Complaints.—Those who suffer from bile and liver complaints should try the effects of this valuable remedy, a few doses of which will make the sufferer feel clastic and vigorous, remove all impurities, give a healthy action to the liver, and strengthen the stomach. If bilious at tacks be allowed to continue without using such a preventative, more serious casualties may arise, and the sufferer be consigned to a bed of sickness Holloway's Pills are an extraordinary remedy acting immediately in the removal of acidity on the stomach, indigestion, debility, and naused preparing the food thoroughly for assimilation rendering each tributary organ perfect in its function, and stimulating the kidneys

Holloway's Pills for Indigestion, Stomach and Liver Complaints.—Persons sufforing from any derangement of the Liver, Stomach, or the Organs of Digestion, should have recourse to Holloway's Pills, as there is no Medicine known that acts on these particular complaints with such certain success. They strengthen the tone of the Stomach, increase the Appelite, purify the Blood, and correct depraved Secretions. In Bowel complaints they remove their primary cause, and soon rectore the Patient to sound health. Nervous or sick headaches, and depression of spirits, may be speedily relieved by a course of these Pills. They are composed of rare balsains, without the admixture of a grain of Mercury, or any noxious substance, and are as safe as they are efficacious. ADVERTISING MEDIUM

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are cradioated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of timours, burns, scalds, glandular swellings, lucerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

HOLLOWAY'S PILLS AND OINTMENT—De-ranged Stomach, Sick Headache.—Our comfort, happiness, and security depend on the know-ledge that most diseases originate from apparently a trifling beginning, and that the large proportion of them spring from inattention to the state of the stomach. Professor Holloway has turned his knowledge to useful account by discovering medithe stomach. In the stomach is account by discovering medi-cines; which cura, without exception, the atten-dants on disordered digestion. They ward off, likewise, the torturing sick headache. The Oint-ment should be well rubbed, twice daily, over the stomach, liver and bowels; to them it penetrates, and, aided by the Pills, immediately works a re-volution as establishes perfect digestion.

Hollowar's Pills.—No Medicine can surpass these Pills in their purifying and curative power, over every organ of the body. Stomach, liver lungs, heart, and kidneys, soon display subjection to their influence, by which all diseases of those organs are arrested, all obstructions removed, and every function is healthfully performed; the digestion is, by their influence, so improved that scarcely any food disagrees; acidity and flatulence alike are checked; nausea and billiounness disappear; firmness is given to every muscle, and tone to every nerve; the mind becomes exhilarated, and the thoughts become cheerful. These wonderful Pills correct dyspeptic habits; whether resulting from residence in hot climates or over indulgence, they secure by night sound and erfereshing sleep, which fits the body for renewed exertions.

Holloway's Pills are decidedly the beat remedy for all disorders of the stomach and bowels, the liver and kidneys. They act with so decided an effect, and yet so gently, that people of the most delicate constitutions may take them with the most perfect confidence. They do not contain one grain of mercury or other noxious substance, heing composed exclusively of rare balsams. They are, therefore, equally safe and efficacious, and as a family medicine, nothing yet invented or discovered can be empared with them for a moment. With these inestimable Pills at hand, together with the printed directions affixed to each box, no other medical advice or assistance can be needed in any ordinary case of sick, ness.

Holloway's Ointment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, easo pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can hear; it is absorbed and directly conveyed to the diseased extures, when, acting on inerves, vessels, and guiders, it will areast disease and sgain establish healthy action. The aperion and quirilying qualities of the Pills have the happiest effect in assisting the Ointment.

Holloway's Cintment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular nation of the heart, and difficult, respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Oinment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick and perseverance in the steady application of his noble Dintment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanisher, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.
